Hi Guys,

Here are the webfont details for the 930 site.

## Gotham

I've enabled Book (+Italic), Medium (+Italic) and Bold (+Italic) to be served from Cloud Typography during development. Please let me know if you need any other weights/styles and which ones you end up using so I can disable necessary weights/styles.

### CSS include snippet

```
<link rel="stylesheet" type="text/css" href="//cloud.typography.com/6811694/6322752/css/fonts.css" />
```

### Book

```
font-family: "Gotham A", "Gotham B";  
font-style: normal;  
font-weight: 400;
```

### Book Italic

```
font-family: "Gotham A", "Gotham B";  
font-style: italic;  
font-weight: 400;
```

### Medium

```

## United Sans Condensed Bold

Attached is the webfont package for United Sans ready for @font-face embedding.

Let me know if you have any issues,  
Thanks,

Joel.
